**Proudly
NZ Made**
Since forever.

Proudly NZ-made.

Rugged, reliable and built to last, SAM Hydraulic Trailers make great working companions. They have been delivering for New Zealand farmers for decades.

The Trailer range is renowned for superior construction, practical design and extreme strength.

All come standard with a spreader tailboard and drop-down and removable sides (for easy access to the deck for side loading).

Due to its superior strength and durability, cor-ten steel decking is now standard on all trailers. 4mm on up to 8 tonne, 5mm on the 10 tonne.

SAM Hydraulic Trailers are designed and manufactured with care for you right here in New Zealand.

Models

- 4, 6, 8 and 10 tonne models are available

Optional extras

- Heavy duty swivel coupling is included on 8 and 10 tonne and an option for smaller models (great for varied terrain)
- Hydraulic trip is optional for 4-6 tonne (included on larger models)
- Brakes are available for tandem-axle (located on front hubs)
- Remote tandem-axle greasing (included as standard on 8 and 10 tonne)
- LED lights for on-road use
- Hay extension (gives an extra 1,200mm length)

Our SAM range is backed by a quick and efficient support service from central Hamilton. The team are also available for technical help should you need it.

All Trailers go through rigorous quality testing. They also have a solid warranty. We deliver quality products and stand by them.

Smart features

Steel deck (cor-ten)

Cor-ten steel decking is now standard on all trailer models due to its superior strength and durability.

Easy drop-down sides

Drop-down sides allow easy access to the deck for side loading. They can also be easily removed.

Remote axle greasing

Remote axle-greasing saves time and effort giving you access to all axle greasing points in an easy to reach location. Standard on 8 and 10 tonne models only.

Quality multi-stage ram

Extremely reliable, high-end multi-stage rams are sourced from Italy. Four and five stage rams are used across our larger trailer models, providing even steeper tipping and more lifting power.

Superior paint finish

Shot blasted, primed and two-pot paint finish coated chassis gives superb corrosion resistance for the long-term.

Safety bar

A safety bar locks into place when the deck is up so you can safely work underneath.

Spreader check chains

Supplied as standard.
